

THE SECRET BEHIND BEHAVIOUR

Your child is screaming and throwing a tantrum. You've tried to calm them down, but nothing seems to work. You're feeling stressed, and the situation is becoming overwhelming for everyone involved.

**Why do children behave this way?
What are they trying to communicate?
More importantly, how can we respond effectively?**

Join us for this insightful 45-minute parent talk to gain a deeper understanding of the possible reasons behind children's behaviours and learn practical strategies to manage common behavioural challenges with greater confidence, empathy and understanding.

**Recommended for parents with
children aged 1 to 8 years old**

Sessions:
