- Build communication skills through stories, games and discussions
- Prepare for a smoother transition to Primary School

Age group: 5yo & 6yo

Period: 3rd Aug to 11th December

Session: 2 sessions per week

Duration: 1 hour per session

Total sessions: 34 sessions

Why Join?

The Bahasa Melayu Fast Track Programme provides additional Bahasa Melayu learning opportunities beyond the regular curriculum, helping children strengthen their language skills and build confidence in speaking, reading and writing Bahasa Melayu.

The programme emphasises regular practice, review and retrieval of learning, enabling children to remember what they have learnt, apply it in new situations and build lasting language confidence.

Our Approach

Through interactive games, guided reading, structured language activities and meaningful practice, children develop Bahasa Melayu skills in a supportive and engaging learning environment. Children are given opportunities to rehearse and retrieve previously learnt knowledge through repeated exposure, guided practice and language use. This helps them pause, remember and adapt their learning in different contexts, strengthening both understanding and long-term retention.

Programme Outcome

Children will develop stronger Bahasa Melayu language foundations and greater confidence in communicating in Bahasa Melayu both in school and beyond. Through consistent practice and retrieval, learning becomes more secure, meaningful and transferable to new situations.
